

Reducing violence against women and their children is everyone's responsibility

What we know

1 IN 3
WOMEN

has experienced physical violence since the age of 15

Almost **1 IN 5** women has experienced sexual violence

On average, **1 WOMAN**

is killed every week at the hands of their partner. This appears to be rising

Almost **17%** of women in Australia have experienced violence by a partner

\$13.6
BILLION

is the estimated economic cost to Australia each year

What we're doing about it

We consulted with:

2,000
community stakeholders

6 convened expert forums

370
public submissions reviewed

The long term and bipartisan:

National Plan to Reduce Violence against women and their children

focussing on domestic and family violence and sexual assault

First Action Plan

Second Action Plan

Third Action Plan

Fourth Action Plan

2010

2022

Working together

Commonwealth, State and Territory Governments and NGOs

1
Communities are safe and free from violence

2
Services meet the needs of women and their children experiencing violence

3
Perpetrators stop their violence and are held to account

4
Relationships are respectful

5
Strengthened Indigenous communities

6
Justice responses are effective

A strong foundation for long-term change

What we need to achieve

Each year, less women experience violence and more women and their children live safely.
